See a Unified View of Your Business

With NetSuite, transaction data flows from all of your retail channels to your warehouse and procurement departments. Invoice and expense data flows to the finance department and customer data flows to the marketing department. This gives the appropriate people in your organization real-time visibility into sales, inventory and customers across all channels and facilitates better decision-making.

Manage by Metrics

Retailers can manage their businesses with key metrics and make timely, fact-based decisions with dashboard analytics ranging from inventory and sales reports to expenses and marketing campaign ROI. All statistics can be viewed as key performance indicators (KPIs), graphical report snapshots and trend graphs in real-time.
